

## Education and Research: Testing Hypotheses

### Adding a Sighting to JellyWatch APP

The image shows two screenshots of the JellyWatch 'New Sighting' app interface. The left screenshot shows the initial form with fields for Category, Sub-category, Quantity, Photo, and Location. The right screenshot shows the form after some fields have been filled out, including Date, Info, and About You sections. Blue arrows point from text boxes to specific fields in the app interface.

*Category* is a dropdown menu

Scientific Genus; common name  
(if not known, leave blank)

*Quantity* is a dropdown menu

Date of sighting

Is this part of a class observation,  
an annual event, etc.?

Can add on your own, or click for  
coordinates to automatically upload
