Part III **Name:** _____

Ocean Acidification: Is There a Problem?

How do we Predict Earth's Future pH Levels

Respond to the following questions based on the observations your recorded from the weather reports:

1. How accurate do you feel the model of the weather from yesterday or last night's forecast was for today's weather?

2. 2. Was there any correlation between the time of the forecast (for example during the school day vs. the late night news) and the accuracy of the forecast?

Education and Research: Testing Hypotheses
