

ONLINE SEMINAR SERIES
October 20, 2021—11:00 a.m.

Heather Ludemann

Program Officer, The David and Lucile Packard Foundation

Harnessing the power of the ocean to address climate change

In this seminar, Heather Ludemann and Mark Michelin (director at CEA Consulting) will lead a discussion with MBARI scientists, staff at Monterey Bay Aquarium, and other participants about the potential for ocean-climate solutions, including offshore wind, blue carbon, improved fisheries and aquaculture management, and others, as well as strategies for pursuing approaches that work for both people and the ocean.

Registration for this webinar is required and space is limited. [Please RSVP here.](#)
